He was accompanied by Captain Elliot of the army. Chairman Knox has complimented the men of this party on their great success and patriotic duty.

THINKS IT WAS SECRET PACT.

If it is true that a secret pact between the Kaiser and czar, against France, had existed since sometime before 1905, when the Portsmouth peace conference was in progress, it is plain that the Russians didn't dump Nick a bit too soon. And France was furnishing war money to Russia at that very time, too!—Manchester Union.

with her flag at half mast, bringing the bodies of the two dead nurses as well as the injured nurse. Official announcement of the cause of the accident was withheld by both the army and navy department. One version of the accident was that a shell had exploded only 175 feet distant, just as it was striking the water and pieces of the shell ricocheted back striking the women. Another that the branch exploded owing to a defective shell and still another that a shell exploded as it was being fired. It is said there were 200 members of No. 1 base hospital aboard the ship of whom 60 were trained nurses.

GERMANY MAINTAINS POSITIONS

(By Associated Press)
Berlin, May 21.—The Germans on the Arras front maintained their position yesterday except one line of trenches which was deserted according to plans, during the British attack on an 8 1/2 mile front, the official army headquarters statement announced. YOUNG PEOPLE JOURNEY TO ALFRED, ME.

A party of fourteen members of the Young People's Society of the Middle Street Baptist church went to Alfred, Me., on Sunday to visit Rev. J. H. Hyde, a former member of the church in this city. He has resigned as pastor to enter the navy as gunner, having formerly served in the navy. The Portsmouth visitors were given a most hearty reception, being cared for in a most hospitable manner. A dinner was served to them at the Old Corner Church. The party left here at 7 a. m., arriving home at 11 p. m., covering the distance by auto. The party was made up of the following: Margaret Rand, Lottie Bailey, Millicent Seavey, Anna Seavey, Pearl Holt, Hazel Rotsch, Elwyn Culbert, Herbert Crowley, Earl Smart, Austin Barrett, Ray Shaw, Lyman Macdonald, Irving Blanchard, Lewis Roberts.

WILL HAVE ITS OWN
MEN GUARD PROPERTY
Company Has Men Ready for Duty to Take Place of National Guard.

Following the other big power and manufacturing plants of the country, the Rockingham County Light and Power Company will have a military company of its own for the protection of the property. For several weeks 32 or more men employed in this city have been engaged in drilling under the supervision of sergeants from both the army and navy. This company has been formed by a permit from the government and the men will have full equipment necessary for the work they are to undertake. They already have advanced much in the handling of the regulation rifle and riot guns. One day each week is given to drill work. The men have also a permit to be ununiformed and will later do duty at different points where the company's property is located, relieving the men of the national guard when necessary.

GOVERNMENT OF IRELAND

Representative Irishmen Will Gather at Convention and Endeavor to Frame Constitution

(By Associated Press)
London, May 21.—Announcement was made by Premier Lloyd George that the government would summon a convention of representative Irishmen of Ireland to submit plans to the British parliament for the government of Ireland. The members of the convention are to draft a constitution and if a substantial agreement is reached according to the scope of the constitution framed, the government will take the necessary steps to have the Imperial parliament grant the necessary legislation. The convention will be held behind closed doors.

NATION SIGN UP FOR 38 NEW SHIPS

Washington, May 1.—Contracts for the construction of 26 of the wooden ships to be built for the United States Shipping Board in its 3,000,000-ton program and for the twelve steel ships already have been signed. It was announced today. Eight of the steel vessels include those of 8000 tons to be constructed at Los Angeles. Four additional steel ships of 3,000 tons will be built at Jacksonville, Fla. The wooden ships will be of approximately 3,000 tons each. Some of them, it was announced, would be built in yards in the vicinity of New York. Chairman Denman of the Shipping board today gave out a statement denying published accounts of a disagreement between Gen. Goethals, head of the United States Shipping Corporation and the members of the Shipping board over the matter of constructing such a large tonnage of wooden ships. He declared General Goethals agreed with the board that it was necessary to build the wooden ships to compete with the submarine menace on the ground that "if the world produces all of the steel ships that it can now build or can be built in the next 18 months, and in addition all the wooden ships that can be built in that time, it will not equal one-half the rate of the destruction established by the German submarines in April of this year."

Making "Cigarette-Comfort" for a Nation

Every minute of every day great batteries of throbbing machines are whirling out Fatimas by thousands.

Fifty-eight per clock-tick is Fatima's average—an average that is growing day by day because of Fatima's comfort.

Throughout the length and breadth of this great country, more smokers are daily learning the comfort-lesson Fatimas teach—

the comfort to throat and tongue while smoking and the man-comfort that follows after smoking.

It's this constantly growing demand for Fatima-comfort that keeps the Fatima machines pouring forth thousands upon thousands of these famous cigarettes.

And it's this common-sense "cigarette-comfort" that makes men call Fatimas a sensible cigarette.

MANCHESTER H. S. HANGS DEFEAT OF PORTSMOUTH

LOCAL HIGH SCHOOL NINE TOOK
LITTLE END OF 40 TO 1 SCORE
IN GAME PLAYED HERE
SATURDAY

Again Portsmouth High School's baseball nine demonstrated that they were not of championship material when they were defeated on Saturday afternoon 40 to 1 at the playgrounds here by Manchester High. Nearly every department showed itself weak at the wrong time and the batting ability of the local players was especially lacking at several times with men on, and it meant the game was not accomplished.

In the fielding and throwing Portsmouth was also weak and for the most part the players appeared to lack the "pep" so necessary in winning games.

Hodgdon, who showed great promise a year ago, appears to have gone back a great deal. He handed out five free tickets to first, and was touched for twelve hits for a total of eighteen bases, a homer, a triple and a double making up his extra base hits. The visitors were also superior in base running, stealing five bags and taking advantage of errors and bad throwing. Portsmouth was credited with five errors and several other errors of judgment were perpetrated which did not show up in the summary. Manchester made five errors but none were of a costly nature.

The batting of Kenyon, three for a total of six bases, in five times up and the fielding of Keane at second base were features of the game. Paul Bailey at first played the best game for Portsmouth. The summary:

GRAND JURY IN SPECIAL SESSION

A special session of the grand jury was held Saturday at Exeter. Foreman Hall of Auburn was appointed foreman, and panel consisted of William H. Reynolds of Atkinson, C. Sullivan Bryant of Brentwood, Walter J. Brown of Candia, Augustus P. Morse of Chester, Frank A. Stevenson of Danville, Cornelius S. Campbell of Deery, Daniel M. Evans of East Kingston, Irvin Norris of Epping, Arthur P. Cooper of Exeter, James H. Martin of Fremont, H. Tobean Parrott of Greenland, Chas. W. Garland of Hampstead, George E. Goodwin of Hampton Falls, C. Sumner Card of Kensington, George H. Emery of Kingston, William M. Trafton of Newcastle, Patrick Londergan, ward 3, John A. Cornelius, ward 4, and Joseph Stocco, ward 5, Portsmouth.

A special session of the grand jury is unusual, but the cause for this has not been made public.

Judge Sawyer heard a Raymond schoolhouse case in which Edward Hestley and 20 others being suit against the selectmen and school board of that town, the allegations being that an article in the town warrant calling for the erection of a 10,000 schoolhouse was insufficient and that the building of it was not authorized. They are asking for an injunction.

FAREWELL TO HER SON

(By Associated Press)
 Stockholm, May 21.—The wife of Archbishop Soderblom has left for Berlin to say farewell to her son Sven, who is about to leave for the front as a lieutenant in a Russian regiment. A number of Swedish are doing service as officers in the German army. Lieut. Stig Ankarstrom, who was serving on the cruiser Goeben at the beginning of the war, was killed recently on board a Turkish mine-sweeper in the Black sea.

A NEW USE FOR STALE BREAD

(By Associated Press)
 London, May 21.—Food economists have been shocked to discover that many people are using bread to clean their wall paper. In fact, the practice is said to be more general now than in pre-war days when there were plenty of paperhangers. Three or four stale loaves will clean the paper in a drawing room and make it look like new.

FOUR MONTHS IN A CROCK LIKE THIS

Do you know that the solid part or body of the best paint is made from metal lead? To make the lead suitable for paint takes nearly four months.

Perforated disks of the pure metal are put into earthen crocks with vinegar in the bottom bowls and tankards piled outside. The fumes from the vinegar and tankard attack (corrode) the lead disks, slowly turning them into white-lead.

White-lead thus made from pure metal lead, ground and washed, is

**Dutch Boy
Red Seal
White-Lead**

White-lead made by the four months' process means a paint that will last for years on the house.

It means a tough armor sheath against the attacks of time and weather.

It means an elastic, smooth paint, impenetrable to moisture. It means a paint which goes a long way in spread and wear.

In either original white or tinted any color desired, on interiors or exteriors, it is a beautiful paint.

For further information about Dutch Boy White-Lead, consult your painter or paint dealer or write for booklet.

GERMAN'S DREAM OF WORLD EMPIRE EXPOSED

Her Real Plans Are for Control of Europe by Control of Central Part from Baltic to the Mediterranean--Army General Staff Believes War Will Last Three Years

STILL ALARM BUT NO FIRE AFTER CALL

COMBINATION CALLED FOR SUSPECTED FIRE AT POWER PLANT WENT BACK WITHOUT FINDING ANY BLAZE

Shortly after 9.30 last evening the auto combination was called to the Rockingham County Power Station for a suspected fire in the stove house of the plant which was the recent scene of a serious fire that destroyed much valuable material. After a thorough search of the building by the firemen no trace of fire was found and the firemen returned to their quarters about 10.30. The call was sent in by telephone when one of the workmen at the plant reported that he saw smoke emerging from the chimney of the stove building.

As it was known there was no fire in any part of the building the men seeing the smoke believed that the building must again be on fire. The cause of the smoke was not discovered.

The Army and Navy Home is crowded to the doors every night and all the visitors are delighted with the way it is managed.

Washington, May 20.—Germany's peace plans which are expected to be tendered soon again by the Imperial Chancellor and believed here on reliable information to be simply a way move, as expressed by James A. Baird some weeks ago, and officials close to the administration will watch the announcement of any plans closely. The information received here reveals Germany's dream of the establishment of a world empire of Prussianism and whatever she may say about relinquishing any claims of territory to the east and west will have nothing to say about the acquisition of territory to the north and south. Germany's dream of a world empire is the control of Europe by cutting it in two by a line north and south, from the Baltic Sea to the Mediterranean, and the Adriatic and the Bosphorus. Whatever she did with France and Belgium, giving back all she now occupies, would not change this plan in the least and she already controls the territory of her allies, Turkey, Austria, Bulgaria, and through them the states of the Balkans, including Serbia which she would not likely relinquish.

The plans of the Imperial government and the Kaiser show that "Blood and Iron" policies of political and economic control of Germany.

The addition of new territory is necessary to Germany and she will keep up the war until defeated and until she gains this. Her peace moves are now believed to be for the purpose of giving her time to readjust her plans

and to get ready for another world war to complete the newly formed plans of cutting Europe in two.

Officials of the government are careful not to make any statement of the definite purpose of this government as to the policy which the United States will adopt in the view of the peace proposals. President Wilson has not made any statement. But that the United States intends to stay in the war until Germany is defeated so that her scheme will not be attempted is indicated from the preparations which the nation is making to carry on the war. The American army General Staff officers believe that the war will last for at least another three years and that it is not possible that an early peace will result.

RUSSIA STANDS FIRMLY WITH ENTENTE

Petrograd, May 20.—Prince Lvoff, the Russian premier made a statement on Sunday at a meeting of Socialists that Russia will stand firmly with the Allies until a lasting peace was secured. All thoughts of Germany securing a separate peace with Russia are put to an end by the statement. General A. S. Kervensky, the Commander in Chief of the Russian forces, the War Minister, also addressed a meeting this evening. He said that as long as he was minister of war his armies would continue to fight against Imperial Germany for the nation could not live if she did not remain honorable to the Entente allies in their fight for liberty and democracy against Prussianism.

Russian statesmen believe that Germany is seeking a separate peace with Russia only for the time being and that a second war on Russia would be waged at the close of the war on England, France and the United States did she withdraw now. It is known here that Germany would control Central Europe and Turkey and Russia's battles for years for an open port to the Mediterranean would be lost for all times even if the open just was a part of the separate peace agreement. The political situation in Russia is now practically secured. The vast majority of the people are standing firmly together for the continuation of the war. Russia's error in slowing up hostilities against Germany pending negotiations are now realized and from this time on Russia will fight Germany without let-up.

HURD-RAITT

POPULAR SALESMAN IN THIS CITY MARRIED ELIOT GIRL ON SATURDAY EVENING

On Saturday evening Arnold Earle Hurd of this city and Miss Cora E. Raitt, daughter of Mr. and Mrs. Charles A. Raitt of Elliot, were married at the Methodist parsonage by the Rev. P. J. Scott. The couple were attended by Miss Florence Raitt and Norman Raitt, sister and brother of the bride. The bride was crowned in a traveling dress of blue with hat to match.

Following the ceremony the couple left for Boston and New York for their wedding tour and on their return will make their home at 930 State street, in this city.

The good wishes of a large number of friends and acquaintances go with the young couple as Mr. Hurd is well known and popular. He has been connected with Thomas Lockey as a salesman for a number of years and his pleasing attention to his customers has met with universal favor.

MANY WREATHS REQUIRED FOR MEMORIAL DAY

ORGANIZATION RESPONDING TO INVITATIONS TO PARTICIPATE IN PARADE ASSURES SOME MEASURE OF SUCCESS

The evergreen for the making of the wreaths for the purpose of decorating the graves of the departed heroes of the American wars will be received at the Court House on Tuesday evening. It was announced last evening, and the work of making the wreaths will be started in the afternoon at 2.00 o'clock by the members of Storer Relief Corp and such other ladies as are interested in the work. There are 750 wreaths to be made for the day. In decorating graves and as the time is getting short it will necessitate the services of a large working force. An invitation is extended by the relief corps for volunteers for this work and as in the past, it is expected that many will avail themselves of the opportunity of aiding the corps in the work of preparing for the memorial day exercises. Owing to the fact that the country is at war the parade will not be participated in by soldiers, sailors and marines as in previous years but Commander Bell of Storer Post stated last night that he believed there would be a good parade in spite of this fact as invitations had been extended to a number of organizations and the replies were being received, all of a favorable nature.

New York, May 20.—Captain Franz Rintelen of the German Navy, David Lamar, "The Wolf of Wall Street," and Jacob H. Taylor, were found guilty this afternoon by a jury of alleged complicity in German plots to damage munitions plants in this country in 1915 which were engaged in making war supplies for the Entente allies. The jury disagreed in the verdicts against three other defendants who were on trial on the same charge. The jury was out twenty-nine hours. The case went to the jury at 4.45 p. m. Saturday. The other defendants were Frank Buchanan and H. Robert Fowler, former representatives in Congress; Henry H. Martin, German Schultze. The indictments are for alleged attempts to foment strikes in munitions factories through Labor's National Peace Council.

Shortly before 10 o'clock last night the jury asked for the stenographic report of all the testimony. Judge Cushman, seeing there was no probability of an immediate agreement, ordered the jury locked up for the night.

BOXING NOTES

Another big crowd of fight fans are expected at the Boston Arena next Tuesday evening for Joe Egan and Ted Kid Lewis are the top liners. It has all the earmarks of a fast, hard fight. It will be the local boy's first big fight since he developed into a welter and if he gets by with Lewis, he certainly will have to be considered. While Egan has been coming very fast in the past few months yet experts think that he is a bit ambitious in taking on Lewis who is without any doubt, one of the fastest and cleverest welters in the world. He has a real kayo in either hand.

If Egan has the requisite confidence the fans will see a fight that will make their hair stand on end. In his last battle he made a punching bag out of Kid Graves and gave the spectators an opportunity of watching him fight at top speed. If Joe gets it into his head that he has an even chance with Lewis he will step out and make the fighter go very fast. Egan knows a lot of tricks and is a wonderfully brawny fighter. While he has never shown a real kayo yet he offsets it by real cleverness.

The semi-final will be a corker. It will bring Tony Vatti and Mickey Brown together for the third time. Each have a victory. These bantams have produced some wonderful fighting in their meetings before the Triple

MASSACRE OF JEWS BY TURKS IN PALESTINE

WHOLESALE MURDER BY GOVERNMENT REPORTED AND JEWS ORDERED TO EVACUATE THE COUNTRY

(By Associated Press)
Stockholm, May 20.—A telegram received here today relates of the start of a wholesale massacre of Jews in Palestine by the Turkish soldiers there similar to the massacres which have occurred in Armenia. The information comes from a reliable source and states that the Turkish government was carrying on the work. The telegram was an appeal to a Socialist body for aid for the suffering people. It added that the Turkish government had ordered the evacuation of Palestine by all peoples of the Jewish faith.

EX-POLICEMAN OF EXETER WAS KILLED BY TRAIN

CHARLES H. CALKIN WAS SEARCHING FOR UNLICENSED DOGS AT TIME OF THE ACCIDENT ON SATURDAY

Exeter, May 20.—Charles H. Calkin, aged 53, while driving across Haines Crossing, a mile and a half west of Exeter station, at 5.02 last Saturday morning, was struck and instantly killed by an eastbound express train. The horse, hired of a local liveryman, was freed and uninjured. The buggy, with Mr. Calkin, was so interlocked with the locomotive cowcatcher that it could not be extricated until arrival at Exeter station.

Mr. Calkin was born in Brownville, Me., Feb. 3, 1851, but had lived in Exeter for about 50 years. He was a retired Slater and a former policeman. He was dog officer, and when killed was making a round of the town's outskirts for unlicensed dogs.

Mr. Calkin belonged to Star of the East Lodge, A. F. & A. M., which he joined in 1909. He was an honorary member of the Exeter Gun Club. It was formerly his custom to pay annual visits to Maine woods for hunting trapping and fishing, in which he excelled. He left two sons, Charles E. of Exeter and William H. of Washington, and a stepson, William D. Martin of Bradford, Mass.

TEAM ACCEPTS CHALLENGE BY SOLDIER NINE

The challenge of the baseball team of 16th Company, C. A. C., to meet any Portsmouth team was accepted by the Portsmouth Independents and a real "Sunset League" sort of game will be played on Thursday afternoon at 6.15.

Port Constitution has had good teams in the past few years but with the recent arrival of nearly 300 men something a little better than usual is the result. Manager Lawrence believes that his men will put up a real exhibition.

In the Portsmouth line some real old league stars are to appear and the team will include in its membership Jack Bailey, Paul Bailey, Jack Thompson, Ted Butler, Bill Leary, Ralph Brackett, Tamme Mardon, Spike Jordan, Art Davis, Tom Moran, and Jack Timmons. Some action should result from this bunch.

Middlemen Show Their Hand.

The advisory commission of the National Defense Council says the criticism which is being visited upon that body by senators and congressmen is prompted by middlemen who object to the government buying supplies direct from the manufacturers, thus eliminating their profits, and who have gone with their complaints to their representatives claiming that the action of the government is resulting in the disarrangement of business.

But the chairman of the Defense Council's committee says the committee will continue to go direct to manufacturers for supplies. "In every purchase," he says, "we are dealing with the makers themselves. In the past a large class of middlemen have supplied the government and a profit was taken by every one who handled the goods. We are determined that this shall not be done in this war, and that the government shall get the very best goods at reasonable prices."

This is business on the part of the National Defense Council, and business that the people of the country will endorse and commend. It affords no just ground for complaint from any quarter. To advance at a time like this the contention that the government should permit men to stand between itself and the manufacturers and take a "rake-off" on every dollar expended for war supplies shows that there is no lack of nerve in this country, whatever else may be lacking at this trying time.

The government will necessarily buy on a tremendous scale and it would be an injustice to the people who must eventually foot the bills to permit middlemen to increase the costs and feather their own nests by the proceeding. The cost will be heavy enough at the best and the Defense Council is to be commended for its determination to keep it as low as possible.

No one has any quarrel with men who honorably gain a livelihood—and in many cases a good deal more—by buying and selling goods, but for any class to step in when the government must buy on such a scale as will be necessary until the end of the war with the claim that they ought to be permitted to make a profit on this great volume of business is simply absurd. It is entirely proper that the government should buy direct from the manufacturers, and all but the grasping middlemen will be glad to know that it is going to do it.

The navy yard is a very busy place these days and will so continue until the close of the war, and perhaps for a long time thereafter, for the probability is that Uncle Sam will henceforth look out for his naval and shipping interests a little more sharply than he has in the past. And none is so dull as not to understand that good business at the navy yard is a mighty good thing for the city of Portsmouth.

The United States Senate was a little warm under the collar when it found a few mornings ago that the doings of its secret session the day before were reported in the morning papers. And the "steal" was pronounced rather more accurate than the average reports of open sessions. Yet it is not probable that the august body will increase its secret sessions for the sake of accuracy.

Government officials continue to assert that speculators are the chief cause of the burdensome cost of living. Which makes pertinent the question why are they not doing something about it? According to their own admissions investigation has done its work. It is time to play a different hand.

The proposal to destroy the crops of Germany by burning them with fireballs dropped from airplanes should be beneath the dignity of any nation that talks about "civilized warfare." Such work as that may well be left to kaiserism. It would be unworthy of any self-respecting nation.

Portsmouth has the honor of furnishing the president of the New Hampshire Medical Society for the coming year, and the honor is appreciated. Furthermore the society may rest assured that it has the right kind of a man at its head.

The weatherman assures us that the coldness of the spring is past and that now we shall have a better brand of weather. But it is to be noticed that he waited until it would have been safe for any one to do this.

HIGHEST POINT EVER RECORDED

(By Associated Press)

Cairo, March 21.—Government revenues in Egypt have this year risen to the highest point ever recorded. And this has been accomplished without any war increase in direct taxation.

Which is the lowest in Egypt of any country comprised within the British Empire. There have been some increases in indirect taxation however. Railway rates have been increased 10 per cent, telegraph and postal rates have been increased in some cases 100 per cent and the taxes on tobacco, coal and construction wood, have been raised. There was certainly some jam of autos in this city on Sunday.

LIQUOR DEALERS PUZZLED BY NEW ARMY LAW

Hotel and restaurant proprietors and saloon keepers and in general all persons having to do with the liquor trade, are in uncertainty at present because of the following clause in the Army Bill, which became a law last Friday evening.

"It shall be unlawful to sell any intoxicating liquor, including beer, ale, or wine, to any officer or member of the military force while in uniform. It was pointed out yesterday that this clause is so vague and so loosely drawn that its enforcement, difficult enough at best, is likely to be beset with endless confusion.

In the first place, it is not clear who are the "military forces" mentioned. There is no doubt that it applies to all officers and men of the existing regular army, and will apply after June 15 to all members of the National Guard contingents who on that day will be formally mustered into the Federal service.

But meantime, lawyers think, the law does not apply to members of National Guard units who at present retain their status as State troops, and can be put in the prohibition column only by State law.

Furthermore, nobody seems to know whether the law applies to officers and men of the United States navy, to say nothing of the members of the Naval Militia and all the various Naval Reserve Corps of official and semi-official character. Then there are various unoffical training corps, cadet corps, &c., all in uniform, who might by a sweeping decision to be held to form part of the "military forces."

Suppose as some liquor dealers pointed out, that an enlisted man in the regular army, a national guardsman and a bluejacket entered a saloon together, the bartender would have to refuse, on penalty of a \$1,000 fine or year in prison, or both, to serve the regular; he might possibly serve the national guardsman with impunity for the present; and as to the bluejacket he would be taking chances.

In any case, it is universally admitted the enforcement of this provision of the law imposes an enormous burden on legal officials throughout the country.

the People

A Chance to Redeem Themselves. Mr. Editor:—The effects of the rank partnership policy as practiced by our present city government has certainly disrupted the overseer of the poor department. Under Charles H. Colbeth the affairs of this department were administered in an efficient and economical manner. The only fault found against Mr. Colbeth, I am told was by some of those whom he would not allow to sponge on the city after having investigated their cases. Mr. Colbeth was a capable official, but he was guilty of being a republican, and so was decapitated by those in control

at city hall. Two men have already been tried in the position and the action at the last session of the city government would seem that matters in that department were not being attended to as in former days. Would it not be a good thing and atone for some of the mistakes already made by Mayor Ladd and his council, to fill the vacancy by electing Mr. Colbeth and have a competent man look after the business of this important department.

SUBSTITUTE PAPER MAKING MATERIAL

(By Associated Press)

Liverpool, May 21.—A new paper making material, known here as "star grass" is being cultivated in large quantities on the coasts of Lancashire. It grows very readily in the sandy soil close to the sea, and is useful in preventing the drifting of the sand. Mown at the proper time, it is dried and then commands a good price as material for a high quality fibre paper used for strong envelopes, wrappings, and bindings.

NAVY NOTES

Will Require Some Time.

Work will start at once fitting up the coast patrol boat Halsey for service. Owing to the queer building of the boat the government will find some job to equip the former fish bureau steamer without taking quite a lot of time.

Held a Conference. All the officers of the industrial department at the navy yard held a conference with the commandant, Captain William L. Howard, this forenoon at the administration building.

Witnessed the Parade. Captain William L. Howard, yard commandant was among the several people from this section who witnessed the patriotic parade at Somersworth on Sunday.

Got a Great Hand. The U. S. Naval Band from the Portsmouth navy yard came in for a great hand all along the line of march in Somersworth on Sunday.

For Interpreters. A number of naval reservists will probably be sent over to France to act as interpreters. An examination will be held within a very short time and selections will be made from the successful ones. They will do duty along the French coast where there are a number of bases for the American boats.

BIG PATRIOTIC PARADE HELD AT SOMERSWORTH

Lucullus Company, U. R. K. P., Takes Part With Other Pythian Bodies.

After two postponements because of rainy weather the patriotic demonstration planned originally for May 6 by the Somersworth and Berwick Public Safety Committee, took place on Sunday afternoon. The city was a holiday aspect, American and French flags being displayed from many residences and public buildings. The sidewalks were lined with spectators and it is estimated that fully 10,000 viewed the parade, which was under the direction of Chief Marshal A. Lester Farnace, past department commander of the New Hampshire G. A. R.

The parade was headed by the Fourth Company, C. A. C. of Dover.

The Greeks of the city comprised a division led by a company of veterans who had seen service in the Greek-Turkish war. These veterans attracted much attention by their soldierly bearing.

Young women garbed as Red Cross nurses comprised another division.

In the school division were floats representing Peace, Duty, Honor, Goddess of Liberty, Victory, and Knights of the Maccabees, had an impressive float representing America's entry into the war. Nearly every secret order and civic organization was represented in the parade.

The Pythian division was headed by Major Willis A. Frost and Past Captain John S. Carr of this city and comprised Henry J. Parker Company of Farmington, Lucullus Company, Capt. P. W. Harrington, of this city; Somersworth Company of Somersworth; Norway Pythian Company of Rochester; Prospect Lodge, K. of P. of Somersworth, and Rathbone Lodge, K. of P. of Berwick. Members of the Pythian Sisters rode in automobiles. The several uniformed bodies of Pythians made a fine appearance and were given an ovation all along the line of march.

At the entrance to the Noble Pine and Playground, an American flag was raised by Littlefield Post on a 60-foot flagstaff.

At the exercises in the Noble Pine and Playground, Mayor Fred H. Brown presided. The chief address was by Hon. James O. Bradbury of Saco, Judge Christopher H. Wells, president of the local Public Safety Committee, also spoke. The opening prayer was made by Rev. Onesime J. Desrosier of St. Martin's Church.

The school children sang Keller's "American Hymn," "The Star Spangled Banner" and the "Marseillaise." At the close "America" was sung by the gathering.

WEATHER RECORD FOR FORTY DAYS

The old saying that as the weather is on Good Friday so it will continue for the succeeding 40 days is supported by a record kept by E. W. Vinters, of Saco, Me., and H. B. Colbath of Wolfboro a conductor on the Boston & Maine. The record follows: Good Friday, April 6, rain; 7th, rain; 8th, clear and fair; 9th, snow and cloudy; 10th, clear and cold part of day, snow squalls; 11th, clear, cold; 12th, fair, warmer, west wind; 13th, clear in forenoon; rain afternoon; 14th, fair, warmer; 15th, clear, cool; 16th, fair, raw windy; 17th, fair much warmer; 18th, warmer, showers; 19th, perfect day; 20th, cloudy, some snow; 21st, rain all day; 22nd, fair, partly cloudy, variable winds; 23rd, fair, partly cloudy, west to south west winds; 24, clear, cool, west to northwest winds; 25th, clear and cool, west to northwest winds; 26th, cloudy, cold, southwest partly cloudy, cold northwest wind; 27th, rain, then clearing; 28th, 29th, cloudy, cold, northwest wind shifting to east wind; 30th, cloudy, variable winds; May 1, cold, snowstorm; 2, rain, partly cloudy, clearing, east and northwest winds; 3, unsettled, cold northwest wind; 4th, cloudy, slightly warmer, southeast wind; 5th, cold rain; east wind; 6th, snow and rain, east to northeast wind; 7th, unsettled, cold; 8th, fair, warmer southeast wind; 9th rain all day, variable winds; 10th, clear; 11th, fair, then showery, west winds; 12th, cool, showery, rain; 13th, showers; 14th, all day; 15th, fair, warmer high north west winds; 16th, fair, warmer, west to south winds.

OLYMPIA THEATRE NOTES.

Remember Nat Goodwin's old play, "When We Were Twenty-One," and the picture too. It is to enjoy a big nation-wide revival on June 6.

The motion picture industry last week became a national institution when representatives of the trade met to form a committee to aid in floating the United States Liberty Bonds. For the first time in the history of the business, the picture trade has the

opportunity to become a national industry on the same basis as the newspaper. By way of setting a good example to the industry, the Famous Players-Lasky Company has subscribed to \$100,000 worth of the bonds. It is the intention of subscribing approximately \$1,000,000 worth of the bonds among the producers and components of the business.

Some of the leading clergymen of the country are supporting a movement to picture the new testament of the Bible. A company has been formed and they will work at Las Vegas, New Mexico. They have purchased a tract of land for the sum of \$700,000 on which they intend to produce the picture.

That the patriotic spirit shown by Thomas Ince in offering his personal services and the facilities of his motion picture plant to the Government has permeated the whole staff may be gathered from the announcement that a class has been formed at the Triangle studios to learn something of Red Cross nursing. They are being instructed by a former army surgeon, David Bennett is one of the nurses.

Our Monday and Tuesday bill is one of variety and merit and these who select this theatre for their evening's pleasure will not choose wrongly.

The feature picture is "A Coney Island Princess" with Irene Fenwick and Owen Moore.

The picture is adapted from "Princess Zita-Zita" and is a rollicking tale of Coney Island and Fifth avenue.

Bessie Love has the leading role in a new Triangle Fine Arts picture, "A Daughter of the Poor," a story of a man with ultra radical tendencies, who changes his views when a bundle of gold is dropped on his doorstep.

Francis Bushman and Beverly Bayne have the principal roles in the fifteenth chapter of the mystery serial, "The Great Secret."

A Triangle comedy rounds out a bill of exceptional merit.

MEN EN ROUTE TO PLATTSBURG

Large Crowd Witnesses Departure of New Hampshire Contingent.

Concord, May 21.—Although no celebration accompanied the departure of the members of the national guard for the military training camp at Plattsburg, N. Y., last evening, a large crowd assembled at the station to see the soldiers leave the city.

Early in the evening the men gathered at the office of Adjutant General Howard and were given their transportation tickets and a few words of advice.

General Howard complimented the men upon their appearance and gave them a fatherly talk on what the state expected of them. He hoped that their actions would make them a credit to the Granite State, and in closing, expressed a desire of having each one of them commissioned when they returned in September.

The feeling of at least one German family was expressed last night when Corporal William Koob of Company M of Newport boarded the train for the training camp. He is of German parentage and his departing words as he left the station were to the effect that if it was in him he would return an officer ready for the call of Uncle Sam.

The national guard contingent made a fine appearance when it marched from the state house to the train headed by Adj. General Charles W. Howard and Captain Oscar G. Lagerquist.

Those who made the trip include:

BRITISH STRIKE AGAIN TO NORTH OF BULLECOURT

Carry German Positions Over Mile Front and Hold Them.

(By Associated Press.)

With Bullecourt in full possession of the British and German counter attacks to the north of Bullecourt repulsed the British are giving the Germans no rest and on Sunday north of Bullecourt Field Marshal Haig's forces commenced a new drive against the enemy, official statements from the war offices say. Under Haig the British started their drive against the Germans and met with much success, advancing more than one mile. The British were in the official report states that the German Crown Prince was being attacked on a fifteen mile front by the British which indicates that the new drive is on the Doucouquet section of the line.

On Sunday the Germans operating opposite the line of the French, forces attempted to come out in the open and smash the French lines but were met from a withering fire from the British artillery which drove them back to their trenches. At only one point were the Germans at all successful when they captured 200 yards of French trenches.

The reports from the Russian front indicate that now that Germany realizes that now the internal political troubles of Russia are practically settled they have given up hope of securing a separate peace and have again opened with heavy action on the Russian armies to the north. All of the attacks were repulsed, the Russian war office announces.

To the north and east of Gorizia the Italians are still fighting hard against the Austrians and are either winning new positions or throwing back the heavy counters of the enemy with severe losses. At one point the Italians were able to cut through the Austrian line in a fresh advance and to the east of Gorizia they made an advance and took 254 prisoners.

ASK FIRST PENSIONS IN "THE WAR OF 1917"

Washington, May 21.—The present conflict will be known as "The War of 1917." At least it will go down in the history of the pension bureau as such, according to an announcement made today by Commissioner Baltzberger, regarding the first two pensions applied for as a result of the trouble with Germany.

They are those applied for by Ruth Thomas of Annapolis, widow of Clarence Crane Thomas, who lost his life while in charge of the navy gun crew aboard the Vesuvius torpedoed on April 22, and by Mrs. Hannah Hallberg of Jamestown, N. Y., mother of Frank C. Hallberg of Company B, Seventy-fourth New York National Guard.

The latter's petition declares Hallberg was killed "in the war with Germany" at Silver Creek, N. Y., on May 7, having been hit by a train on the Nickel Plate railroad while guarding a bridge.

AH! OUR OLD FRIEND AGAIN

The Dover Democrat reports the mysterious airplane again, and according to Mrs. A. H. Mason of Middle road, Dover, N. H., this week machine was capping over her farm at 8 o'clock on Friday night. Mrs. Mason says she not only heard the noise but she saw lights on the machine. She reported it to the police and Captain Dan Murray got two calls over the wire to go out and take a look at the flyer, but Dan has not yet said what he discovered in the sky. The second time the machine came back it was on the way from Great Bay to South Elliot.

GIRLS' CLUB NOTES

The club rooms will be open tonight for a general good time and Mrs. Tufts will act as hostess.

Tuesday evening the rooms will be open for a rehearsal for the tableaux which will be given Wednesday evening at the Carnival of Nations.

Tickets for the carnival may be purchased from club members or at the door.

The entertainment in the afternoon will be given at 4 o'clock and will include violin, vocal and instrumental music, also dances.

In the evening at 8 o'clock a set of tableaux representing girls of different nations will be given. The admission includes the entertainment.

EXETER

Exeter, May 21.
It was all Exeter in the M. I. T. freshmen dual meet held Saturday afternoon, the New Hampshire school winning by a score of 95 to 13, and captured every first place of the meet.

Some good performances were made by Torkelson in the 100, and the 220-yards dash in which he came within one-fifth of a second of the school record in each event, and C. Hill in the low hurdles who was a dark horse and the surprise of the meet winning in 26 4-5 seconds, which is close to the school record of 28 seconds.

In the half mile run M. K. Douglass set his own pace all the way, and was not pushed and was timed under two minutes and compared very favorably with Exeter's former half milers in ending "Bill" Bingham who holds the school record of one minute 57 2-5 seconds.

Dennis O'Connell ran a good mile but was not pushed at all, slowing down to let his teammate Fitzgerald come closer to him.

The summary:
100 yard dash won by Torkelson, E. Mills T. second, and Sturm E. third, Time 6 4-5 sec.

220 yards low hurdles won by Hill, E. Mills T. second, and Brickett, T. third, Time 26 4-5 sec.

220 yard dash won by Torkelson, E. Smith, P. second, and Sale, T. third, Time 22 1-5 sec.

550 yard run by Douglass E. O'Connell, E. second, and Watson, E. third, Time 1 min. 59 4-5 sec.

High jump, tie between Goodell and Krogness, both E., and Frense, T. second, Height 5 feet 9 inches.

Shot put won by Noyes E. Batchelder, E. second, and Hudson, E. third, Time 26 4-5 sec.

Pole vault, won by Wood E. Johnson, E. second, and Rogers E. third, Height, 10 feet 2 inches.

Hammer throw, won by Hudson E. Sturm, E., and Du Vernet, T. third, Distance, 149 feet.

Running broad jump, won by Laurie, E., Fellows, E. second, and Stager, E. third, Distance, 21 feet 9 inches.

Exeter's clean slate of the past three games was spoiled Saturday afternoon by the Lawrence academy nine of Groton, Mass. The visitors were weak being defeated 10 to 1.

The visitors scored a run in the 9th after two were out. McNamara hitting safely to right, which Cutler juggled just enough to allow Shgedy to cross the plate. Exeter piled up ten runs and the result was never in doubt.

Brainard, the Lawrence pitcher had a bad first inning, passing four men. A passed ball added to the disaster, allowing Exeter to take a 2 to 0 lead.

Corrigan was high hitting man, scoring a three and a two bagger. Leo Goley of Nashua was in fine form, keeping the hits well scattered and fanning 11. Hutchins made a difficult catch of a high fly which was the feature of the game. The score.

LISTEN TO THE BAND.

Dancing has been in vogue since the days of the Egyptians, and ancient as is the pastime, each year the fun and exercise seems to form a stronger hold upon the public, especially so when an attractive musical program is announced.

Clara Wentworth Marden of the Fest 15-piece orchestra, promises many entirely new and melodious instrumental numbers at Freeman's hall, Wednesday evening and the dancers are full of expectation of delightful music.

Note—Master Fred Sanborn, drummer xylophone and bell soloist, will assist in featuring the music. He is Mr. Whitman's youngest professional, being but 14 years old and had had many offers to join the big shows, but will complete one more year at the Haverhill high before becoming a real professional by occupation. Concert starts at 8. Dancing until 1. Halcyon only 10 cents. Come early as it looks like a packed balcony.

LINDSAY RUSSELL IS ACCORDED HEARTY WELCOME

Tokio, May 21.—(Correspondence of The Associated Press)—Leading Japanese, accorded a hearty welcome to Lindsay Russell, President of the Japan Society of New York, who is now visiting the Far East, and seized the occasion, also, to re-emphasize Japanese friendship toward the United States.

Among the many functions arranged in honor of Mr. Russell were dinners given by Baron Hiedaemon Mitsui and Baron Eishi Shibusawa. Speaking of Mr. Russell's work in the United States in bringing about a more sympathetic understanding of Japan and its people, Baron Shibusawa said that he hoped Mr. Russell would bring back from his visit to China the conviction that China could best be developed by the United States and Japan working together.

"I consider," declared Baron Shibusawa, "that this cooperation is a most important point in the relations between Japan and America."

Mr. Russell said that the Japan Society of New York would at once form a committee of three to cooperate with a committee of the recently organized American-Japan Society of Tokyo. He explained that there was a project on foot for the development of a Japan-America Chamber of Commerce with the object of encouraging trade, travel and the investment of American capital in the Orient.

ENGLISH CHILDREN LIKE DAYLIGHT SAVING PLAN

London, May 21.—(Correspondence of The Associated Press)—English children are rejoiced by the new summer time schedule under which the clock is advanced one hour; but their parents are not made so happy by the change. The extra hour of daylight comes at the end of the day and affords the children an extra hour for play. They refuse to go to bed an hour earlier than before the change in time and their parents, whose day's work ends only when the children are sunning in bed, are in despair.

The educational authorities are beginning to display concern over the resulting loss of sleep among children.

Parents and teachers are complaining because the longer hours of the summer day induce the child to stay for play the time should be devoted to recuperative slumber.

The effect is said to be to retard rather than to promote the welfare of pupils in the schools. The teachers assert that the hour of sleep lost by the children tends to dull their receptive capacity.

The head of one of the largest London schools has suggested that the situation be remedied by advancing the school hours during the summer time period, so that they will begin at 10 a. m. and finish at 1.30.

EXPRESSMEN CAN OBTAIN BONDS OF LIBERTY LOAN

AMERICAN EXPRESS COMPANY HAS PLAN FOR ASSISTING ALL EMPLOYEES IN HELPING OUT SUBSCRIPTION

An announcement conveying the intelligence that the American Express Company had purchased a large block of the government bonds of the Liberty Loan of 1917, and would give an opportunity to all its employees to purchase such bonds at actual cost, has been received by Mr. C. B. Abbott, local agent for that company. The announcement further stated that in order to facilitate the sale of the bonds that company would extend privileges to the public to subscribe for the bonds as well as to its own employees.

The company statement said that if a sufficient number of employees wished to subscribe for a larger amount of

bonds than they would be able to pay for by August 30 the company would consider a plan of providing for payment by monthly instalments. If the bonds are sold with such rapidity that the block becomes exhausted before June 15 the company will purchase as many more bonds as are required.

Particular emphasis is placed upon the fact that these negotiations will be made without profit to the express company, and that the Liberty bonds will be free from federal, state or local taxes, except estate and inheritance taxes.

The subscription books will close on or before June 15, and purchasers are notified that all subscriptions should be sent to the company's treasurer at 65 Broadway, New York, through the office of the local agents. The cost will be in part, unless the bonds are delivered after June 15 when interest of 3-1-2 per cent will be charged for the time beyond that date until payment is made.

GERMANS SEIZE NORWEGIAN CRAFT

Christiania, May 19.—The Norwegian

steamer Thorum has been seized within the four mile limit by a German submarine.

Norway has always claimed her territorial rights and serious diplomatic difficulties are expected to result from the seizure.

The Thorum was chartered by the government and was carrying food to southern Norway.

Christiania, May 19.—An Exchange Telegram states that Norway in an official communication to Germany has expressed a hope that the Thorum will be released.

PLANS ARE MADE FOR BIG RALLY FOR RECRUITING

'FLYING SQUAD' WILL BE AT THE PORTSMOUTH THEATRE IN THE EVENING AND MANY SPEAKERS WILL APPEAR

At a meeting of the local committee of the State Public Safety Committee, held at the Chamber of Commerce rooms on Sunday, plans were made for the big rally for the stimulation in recruiting to be held on Tuesday evening at the Portsmouth Theatre. The meeting will be called to order at 8.00 o'clock and a long list of prominent army and navy officers will speak in the interest of recruiting in the several branches of the service. The "flying squad" which has been touring the state in the interest of recruiting, and which has been gaining great success in the different towns and cities of the state, will be here at that time and an interesting program is assured.

THE BRONZE MEDAL

(Tune, "The Old Dutch Broom")

There's a little bronze medal that's registered more dearly than diamond, or ruby, or jewel or star. To heroes entitled to wear it sincerely, it links them together, these comrades of war. What memories it brings of the dead and the living, of fathers and brothers who struggled and fought. Those veterans who fought to preserve as a nation are known by the buttons they wear on their coat.

Chorus
The little bronze button
The sacred bronze button,
The Grand Army button
He wears on his coat.

Still keep it in view—that little bronze button—
And honor the wearers, once brave boys in blue.
They marched side by side, it will never be forgotten,
'Tis the Grand Army button they wear and so true;
That little bronze button, the charm of the wearers.
The gray bearded veterans who've laid by their arms.
They're mustering out heroes each day by the hundreds.
These veterans, who battled to save us our faiths.
How dear to their heart of each gray-bearded soldier,
And thoughts of the day when he still wore the blue,
While memory recalls every trial and danger,
And scenes of the past are brought back to his view.
Though long since discarding our arms and equipment,
There's one thing a soldier most surely will note—
The first thing they see on the form of a comrade
Is the little bronze button he wears on his coat.
"How much did it cost," said a man to a soldier,
"That little flat button you wear on your coat?"
"Ten cents in good money," he answered the stranger.
"And four years of marching and fighting to boot.
The wealth of the world cannot purchase this emblem,
Except that the buyer once wore the brave blue."
And it shows to mankind the full marks of a hero—
A man who to honor and country was true.
Then let me be proud of the little bronze button
And wear it with spirit both loyal and bold.
Fraternally welcome each one who supports it.
With love in our hearts for the comrades of old.
Each day musters out whole battalions of wearers,
And soon will be missed the loved one so dear.
But millions to come will remember with honor
The man who'd the right the bronze button to wear.
—Words composed by Past Grand Commander of Massachusetts G. A. R. John L. Parker.

Washington, D. C., May 20.—Henry P. Davison, Chairman of the War Council of the American Red Cross, announced today that Judge Robert S. Lovett, formerly of Texas but now of New York, and Chairman of the Board of the Union Pacific Railroad, has volunteered to give practically the whole of his time during the war to any work to which he might be assigned by the Red Cross.

"I am too old to go to the front," Judge Lovett told Mr. Davison, "but I am anxious to do my bit in whatever way I can be made useful."

Mr. Davison, who, with the War Council, has spent the last week in reorganizing different activities of the Red Cross, especially from the point of view of an efficient business enterprise today authorized this statement:

"Judge Lovett's offer of service is the most inspiring event of a very active week at Red Cross Headquarters. He is the man who Mr. Harman picked as his successor to run the Union Pacific Railroad. Now he comes forward to place his broad experience and sound judgment at the disposal of the Red Cross in this war."

"It is singularly in keeping with the stupendous things which the Red Cross is already being called upon to do, and is planning to do, not only to relieve suffering, but to help win this war, that big men of affairs like Judge Lovett should feel it to be worth their while to place themselves thus unreservedly at the Nation's service."

"Judge Lovett's offer comes at a particularly fortunate moment, for it will make immediately possible the creation of a new agency the need for which has become very pressing."

RECUPERATIVE HOMES ARE BEING STARTED

(By Associated Press)
London, May 21.—Recuperative homes are being started in various parts of the country for the treatment of soldiers suffering from nerve shock. The temporary derangement of mentality through nerve shock has resulted according to Doctor Russell, a well-known nerve specialist, in several men being sent into lunatic asylums whereas they should have been taken care of in special homes where they would receive individual care and attention. These recuperative homes have been started for such

special cases and special physicians will be in attendance.

REVOLUTIONS HAVE WORN THEMSELVES OUT

(By Associated Press)

Chihuahua City, Mexico, May 21.—A saying in Spanish that, when Mexicans plow, plant and prepare the soil for crops, war is at an end, is being quoted in the agricultural districts of this State as proof that the revolution have worn themselves out and the people are returning to peaceful pursuits.

In all of the fertile mountain valleys on the plains of the north and the irrigated districts in southern Chihuahua farmers are putting in crops, many of them for the first time in five years. Beans, corn, some wheat, and even potatoes are being grown on the highly productive table lands.

REPAIRER OF TYPEWRITER NOT EXEMPT

(By Associated Press)

London, May 21.—Not even the man who repairs King George's typewriters and those of the Prime Minister, David Lloyd George, is even exempt from military service. Only a month's extension of time in which to join the colors was given him by the military tribunal, the judge remarking that he did not believe the King would like to think he had an able-bodied man on his staff.

ROGERS STREET, ALBANY

ROOSEVELT HAD PLANNED ACTION BY SEPT. FIRST

SAYS HIS FORCE WOULD HAVE BEEN IN THE FIELD BEFORE BAKER'S PLANS FOR TRAINING ARE UNDER WAY

(By Associated Press)

Oyster Bay, N. Y., May 20.—Col. Theodore Roosevelt announced this afternoon that all who had volunteered for service under his command for a corps to operate in France were absorbed for their obligations and he recommended that they enlist in the regular branches of the American service if they are able or if not within the age limit to serve the country in whatever capacity they can in civil and economic lines. He declared that had he been allowed to carry out his plans he would have had an American army in the field at short order and that a large part of it would have been on French soil fighting by the first of September, the time announced by the Secretary of War for the assembling of the selective draft army for training.

"I wish to correct," he said, "some of the misrepresentations made by officials and President Wilson has made. My purpose was not for any individual advancement, in a letter to the Secretary of War I offered to raise two divisions to be placed in command of Generals Woods, Pershing or Barry. I wish to repeat that my motive was without any political gratification on my part."

"I asked for fifty officers from Lieutenant Colonels to second lieutenants and this is less than one tenth the number of officers General Pershing will take. The charge that my request would take many valuable officers from other duties, from which they could not be spared I therefore resent."

C. E. BREWSTER & CO. PRAISE ABBEY'S SALTS

Messrs. C. E. Brewster & Co. of Dover, N. H., are receiving thanks from their friends for telling them the value of Abbey's Salts.

Before the public many years, they are the surest method of relieving and preventing Headaches, Biliousness, Dyspepsia, Constipation, and the many more serious diseases which Auto Intoxication brings on.

A spoonful of the granules in a glass of water taken night and morning for about a week of ten days will give you a new understanding of the delight of perfect health.

Abbey's, by the way, is packed in the new size bottle but at the same old price.

We suggest that you all at your druggists and try a bottle of these salts.

Why Run the Risk of Spoiling Food When a Gas Range INSURES PERFECT RESULTS

A burned cake is mighty expensive, but the best cook in the world can't always get just the right brown with a cranky oven. Perfect results can only be certain in the homes that have modern gas ranges where the heat is easily controlled and perfectly regulated.

PRESIDENT WILSON URGES PLAN FOR FOOD CONTROL

Washington, May 20.—President Wilson outlined the Administration's food-control program in a statement tonight and declared the powers asked for the Government are no greater than those other Governments at war have been compelled to take.

"There is no intention," he said, "to restrict or interfere with normal processes of production."

The statement also makes formal announcement that Herbert C. Hoover has been asked to become food administrator and that he has accepted on condition that neither he nor his immediate assistants shall receive any pay for their services.

"Although it is absolutely necessary that unquestionable powers be placed in my hands," says the President's statement, "I am confident that the exercise of those powers will be necessary only in the few cases where some small and selfish minority proves unwilling to put the Nation's interests above personal advantage."

The President's Statement

In the statement the President says: "It is very desirable, in order to prevent misunderstanding or alarm and to assure cooperation in a vital matter, that the country should understand exactly the scope and purpose of the very great powers which I have thought it necessary in the circumstances to ask the Congress to put in my hands with regard to the food supplies."

"Those powers are very great indeed, but they are no greater than it has proved necessary to lodge in the other Governments which are conducting this momentous war, and their object is stimulation and conservation, not arbitrary restraint or injurious interference with the normal processes of production. They are intended to benefit and assist the farmer and all those who play a legitimate part in the preparation, distribution and marketing of foodstuffs."

Sharp Line of Distinction

"It is proposed to draw a sharp line of distinction between the normal activities of the Government represented in the Department of Agriculture in reference to food production, conservation and marketing on the one hand, and the emergency activities necessitated by the war in reference to the regulation of food distribution and consumption on the other."

"All measures intended directly to extend the normal activities of the Department of Agriculture in reference to the production, conservation and the marketing of farm crops will be administered, as in normal times, through that department, and the powers asked for over distribution and consumption, over exports, imports, prices, purchase and requisition of commodities, storing, and the like, which may require regulation during the war, will be placed in the hands of a commissioner of food administration appointed by the President and directly responsible to him."

What Hoover Will Do

"I have asked Mr. Herbert Hoover to undertake this all-important task of food administration. He has expressed his willingness to do so on condition that he is to receive no payment for his services and that the whole of the force under him, exclusive of clerical assistance, shall be employed so far as possible upon the same volunteer basis."

"He has expressed his confidence that this difficult matter of food administration can be successfully accomplished through the voluntary cooperation and direction of legitimate distributors of foodstuffs, and with the help of the women of the country."

"Although it is absolutely necessary that unquestionable powers shall be placed in my hands in order to insure the success of this administration of the food supplies of the country, I am confident that the exercise of those powers will be necessary only in the few cases where some small and selfish minority proves unwilling to put the Nation's interests above personal advantage, and that the whole country will heartily support Mr. Hoover's efforts by supplying the necessary volunteer agencies throughout the country for the intelligent control of food consumption and securing the cooperation of the most capable leaders of the very interests most directly affected; that the exercise of the powers deputed to him will rest very successfully upon the good will and cooperation of the people themselves and that the ordinary economic machinery of the country will be left substantially undisturbed."

Madrid, May 20.—Spain's note to Germany protesting against the sinking of the Patrio is said to be short and energetic, although official circles are extremely reticent regarding the tone of the document.

The press continues to discuss the situation with interest. The news papers with liberal or independent tendencies point out the evident contradiction of this aggression with Germany's protestations of friendship for Spain.

The Spanish declares that everything in the present case upholds the Spanish Government in adopting the firmest attitude. The ship was Spanish, the cargo was intended for Spain, and the encounter was in Spanish waters.

The Diario Universal says that the sinking of the Patrio seemed to be intended expressly to convince the most recalcitrant of the inconsistency of a certain declaration emanating from Germany that it was sought to use for political ends.

El Mundo says the Government ought to look at the question from a broad point of view, not limiting the discussion to the case of this single ship, and take measures to end a situation that cannot be allowed to continue.

SPAIN DEMANDS GERMANY PAY FOR SINKING SHIPS

CATEGORICAL NOTE SENT BY GOVERNMENT ON ATTACK ON STEAMSHIP PATRICIO

Paris, May 20.—The Spanish note to Germany concerning the German submarine attack on the Spanish steamer Patrio is framed in categorical language and does not admit of further negotiation, according to the Madrid Imperialist, says a Havas dispatch from that city.

It contains a demand for reparation and requires guarantees that such an occurrence shall never be repeated, alluding to assurances already given that Spanish territorial waters should be respected as if it were Spanish soil. The Imperialist adds that the document was unanimously approved by the Cabinet.

The Patrio, reported torpedoed by a submarine, was not sunk, according to a Havas dispatch from Valparaiso today. This steamer was abandoned after having been shelled by a submarine. The dispatch states, and was picked up 20 miles off Cape San Antonio and brought to port under her own steam. The steamer was badly damaged by three shell holes, but otherwise was in good condition, even her log and papers remaining intact.

"The Governor of Valencia," adds the dispatch, "made an official investigation which established that the shells occurred outside Spanish territorial waters, thus removing the case from the recent protest of the Allies that submarines were operating with in Spanish waters."

TAKES A BRIDE IN THIS CITY

Quiet Wedding of Two Popular Young People Took Place on Sunday.

The wedding of two well known people took place on Sunday afternoon when Miss Selma E. Simpson of Portsmouth became the bride of Albert C. Thompson of Newfields. The ceremony was performed by Judge E. L. Cepithill and was of a very quiet nature and was attended by only a few close friends and relatives. They were unattended. The bride was gown in a pretty creation of grey silk and carried a bouquet of white carnations and Killarney roses.

Following the ceremony the wedding party repaired to the Kearsarge house where a repast was served at which there was an outpouring of hearty congratulations to the happy couple.

Mr. and Mrs. Thompson were the recipients of many beautiful and costly wedding gifts.

The bride has resided in this city for several years engaged in her profession of trained nurse and is justly popular with a wide circle of friends and acquaintances.

The groom is a prosperous business man and has for several years conducted a grocery business in his home town. Following a short wedding trip they will reside in Newfields.

PUTTING A LARGE SUBMARINE CABLE ACROSS THE RIVER

Telephone Company to Remove All Wires From Portsmouth and Kittery Bridge.

The New England Telephone and Telegraph Company began stretching a large submarine cable across the bed of the river from Nobles Island to Kittery today. This is considered one of the most important improvements made by the company for several years in the way of construction. The cable will carry nearly a hundred wires and will do away with the trunk lines and other service over the Portsmouth and Kittery bridge. A large crew of workmen have been assigned to the job.

YOUNGSTERS MAKE MERRY AT CORNELIA'S BIRTHDAY PARTY

Miss Cornelia Murphy, bright little daughter of Mr. and Mrs. Cornelius P. Murphy, celebrated her third birthday at the home of her parents, No. 78 Daniel street, Saturday afternoon from 2 to 6 o'clock which was one of the most enjoyable functions which the little tots of the neighborhood have participated in for some time. Games dear to the hearts of youngsters were indulged in and they made merry every minute of the allotted time. Refreshments were served and included an ornamented birthday cake of which the little guests received as a souvenir of the happy occasion. The children present were Dorothy Fetter, Josephine Connors, John Neville, Cleve Carson, John Foley, Catherine Foley, Mary Flahive, Rita Anderson, Robert Anderson, Robert Connolly, Alice Hafferty, Catherine Tinsler, Donald Murphy, Alice Regan, Elenora Connors.
